DETAILED ACTION

Claims 1-28 are pending in the application.

Claims 5, 6, 13, 14, 19, 20, 27 and 28 were withdrawn from the merits as they are directed toward a non-elected invention.

Claims 1-4, 7-12, 15-18 and 21-26 were examined on their merits.

It is noted that claim 12 was inadvertently omitted from the previous rejection.

For this reason, this Office Action is non-final.

Previous rejections not appearing in this Office Action were overcome by Applicant's amendment to the claims and/or Specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 7-11, 15-17, 21-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Shimazono, H. (JP 53162929 – English Abstract).

The only argument by Applicants is that the prior art did not teach the antibacterial activity of the matsutake. However, this is not found convincing because the claims are composition claims. The intended use of the composition does not materially change the fact that the composition is the same composition as disclosed in the prior art.

Claims 1, 12, 15 and 26 are newly rejected under 35 U.S.C. 102(b) as being anticipated by Abe et al. (JP 357122791 A).

Abe et al. specifically taught a suspension of Matsutake spores in penicillin as an antibacterial agent.

Thus, Abe et al. anticipated the claimed invention.

No Claims are allowed.
